BULGARIANS CLAIM DEFEAT OF SERBIANS

Situation Upon the Saloniki Front Still Remains Secure

(By Morning Bulletin Leased Wire)
LONDON, Aug. 25.—The Russians have concentrated a large number of troops on the River

manian frontier and on the banks of the Russian Danube, for the purpose of invading Bulgaria by way of Dubrudja, according to a Budapest despatch to the Morning Post, quoting the Azest. The Azest also reports powerful Roumanian forces.

Population Fled.
LONDON, Aug. 24.—A despatch to Reuter's Telegraph Company from Athens says: "A member of the cham-

ber of deputies from Florina, which lies ten miles south of Monastir, arrived here yesterday from Sorovich. He says the Bulgarian advance met with no resistance, as from Sorovich to Prespa Lake, the entente allies had only unimportant forces, and without

artillery, simply for the repression of smuggling. The population of Florina fled in the direction of Sorovich."

SOFIA, Aug. 24, via London (5:30 p.m.)—Bulgaria troops, advancing on the western end of the Macedonian front, defeated the Serbians and com-

— The situation on the Saloniki front still remains obscure, but apparently

there has been no important change in the positions of the belligerents since the allied flanks were forced back by the Bulgarians at the opening of the offensive. There have been no further reports as to the attitude of Roumania, and main interest is con-

ired at present on the situation in Greece. Athens newspaper despatches report that Greek volunteers are rushing to Seres from all parts of the country to take up arms against the Bulgarians. In the absence of official information, conflicting reports are

being received as to whether or not the Greeks and Bulgarians have actually clashed. Reports received at the Greek capital state that fighting has been going on at Seres for some days.

WETASKIWIN FAIR THIS YEAR WAS ANOTHER SIGNAL SUCCESS

Favored by Excellent Weather Grounds Well Filled With Superior Exhibits—Frost Damage Slight in District—Oatmeal Showing Creditable

Wetaskiwin, Aug. 23.—A representative and well-filled success for this year's fair, the Wetaskiwin fair, which opened yesterday, and Wednesday was favored by excellent weather, and the grounds were well filled with superior exhibits. Frost damage was slight in the district, and the showing of oatmeal was creditable.

Poultry was an exceptionally well patronized department of the exhibition. The quality of the birds was excellent, and the quantity of the exhibit was large. The quality of the birds was excellent, and the quantity of the exhibit was large.

The officers of the fair were: President, H. J. Armstrong; Vice-President, C. E. Montgomery; Secretary, H. J. Armstrong; Treasurer, C. E. Montgomery; and so on.

Good Showing of Livestock. In a mixed farming area one is apt to find a good showing of livestock, and one did. Although many of the exhibitors were from the city, the quality of the livestock was excellent.

Very creditable success. The success of the fair was very creditable. The quality of the exhibits was excellent, and the quantity was large.

Friday, August 25, 1916.

Boston's civic librarian says the average American magazine is getting worse. It can't.

The Labor Department calculates that the cost of living was slightly lower during July. The change, however, was so small that it has to be pointed out.

In fairness it should be stated that so far no one has accused Von Bernstorff of stirring the rail war hysteria.

In the year ending last March the people of B.C. imported \$25,000 worth of butter from New Zealand. The reason for this is a moral lurking underneath that fact which it would be worth while for the rural population of this favored "cow country" to dig out and take a look at.

The Calgary Herald is worried because the railways won't have last year's crops hauled out by the time this year's crop is threshed, and doesn't know what to do about it. Well, it might get in Ottawa friends to seize a few million bushels by way of expediting the movement, of course. But might not be the result of last year's experience it is about as likely as any other desirable and conceivable cause for promising a means as any they are likely to try.

An order-in-council has been passed at Ottawa awarding Sir William Meredith \$5,000 for presiding over the inquiry into the transactions of the Civil Service Commission. The Ministers might pass another order instructing themselves to pay it, in grateful recognition that Sir William did not deem it his duty to be more specific on the question of Ministerial responsibility for said transactions. To the beneficiaries belongs the bill.

Public meetings to discuss the street railway and other civic utilities will do good, no good, or positive harm, according to the extent to which they are held out and public interest aroused. The city needs nothing more than this stage than a disclosure of matters which would result in the awakening of public interests in the positions, prospects and possibilities of our civic enterprises.

It needs nothing less than an explosion of talk without facts, which would give impetus to misrepresentation abroad rather than to intelligent concern at home.

The Ottawa Parliament Building's last, winter, left standing the walls, or portions of the walls, which the architects valued at two million dollars and which they said could be used in rebuilding the structure. With the understanding that this would be done a committee composed of members from both sides of Parliament was chosen to act with the Minister of Public Works in supervising the reconstruction. Mr. Rogers has done nothing but otherwise to not rebuild, but to build anew, and has had the walls torn down in preparation therefor. As the work they were appointed to superintend has been abandoned, and an altogether different

undertaking substituted, the Liberal members of the committee are thus left with the choice of resigning or of shouldering responsibility for the change of plans and the increased cost which will result. If they decline to continue to act, now that the purpose for which they were appointed has been discarded, there will be no blame attaching to them.

Last year 283 people were killed by automobiles in New York. The figures for the three preceding years were 290, 303 and 246. The Allies might do worse than recruit a brigade of New York chauffeurs.

The Canadian Courier says the Canadian press is being run by ex-Liberals. And, considering the way they are running it, the conservative press was never more welcome to anything in its life.

Canadian whips-makers are starting to export their product. Great Britain by the ship-load. Why not to Germany? If the subjects of the Kaiser are constructed like Canadians they would jump in it huge quantities, and in turn be done by it.

A week or so ago a band of the I.W.W. fraternity landed in the Northport and camped in the skating rink. The citizens turned out and herded the guests into the hands of the immigration authorities, who shipped them back across the water.

As crops are large and harvesters scarce, they might have been marched out into the fields and made to work.

Berlin has at last consented to pay for the American citizens in the Lusitania. The rate of five thousand dollars per head for the men and something less for the women and children.

With the mental reservation, of course, that other ship-loads will be drowned at the same rate for less. The cultured world think it to their military advantage to sacrifice the money.

At Seattle, Mr. Hughes has been telling the voters that he believes in firmness in the nation's foreign policy, even to the extent of going to war when necessary to protect American citizens abroad. Mr. Wilson is staking his chances for re-election on the fact that he has been a station out of the line of provocation. The issue in the coming election seems to be shipping into the question of whether the American people consider the first and highest duty of the chief executive to avoid war or to vindicate right and rights.

The Toronto Mail and Empire hints darkly that, as burglars and pick-pockets are being hauled under the ban, so those who interpose themselves between the producers and consumers of wheat and maize are being hauled under the ban. If prices will sometime be made liable to the pains and penalties of the criminal code. A skeptical public might avail the opportunity of making this as notice that the Board of Government is about to commit legal patriarchy by clapping the milling trust into jail. Meanwhile, the Mail might vindicate the practicability of its proposal by stirring up the Ministers to punish public officials who have been swindling the farmers by overvaluing farm implements, so as to increase the duty payable on them.

If it should be a jail offence to buy the consumer, some sort of punishment should surely be coming to the milling trust who help the producer.

VON TIRPITZ URGES WAR ON UNITED STATES

Manifesto Says Huns Are Hand-
capped by Restrictions on
Submarine Campaign

Chicago, Aug. 24.—The Washington
correspondent of the German Herald
says as follows:

The German admiral, Von Tirpitz,
who advocates unrestricted submarine
warfare on merchantmen, has issued a
manifesto in which he has made the
United States the target of his attack.

He charges that this country has
received by the State Department and
has caused considerable concern to the
German government, that Germany is
handicapped in the prosecution of her
war and death struggle by the limits
imposed upon submarine operations
by the German government, at the
instance of the United States.

He charges that this country, in any
case, is hostile to Germany and that
the time has come to consider the
United States as the enemy of the
German people.

He believes should be United
States on the war on the side of the
German people. He believes it would do
more harm to the German people to
have a better dispatch from Copenhagen.

The text of the Von Tirpitz
manifesto was published by the Berlin
Herald. The manifesto was not per-

ACTIVITY AMONG INTERNED GERMAN SHIPS AT BOSTON

Liner Wilhelm Heintz Has Pres-
umably For New London—
Brown Ship Dealer

Boston, Aug. 22.—Activity among
some of the interned German ships at
the port and wharves here, concern-
ing them attracted attention today.

The steamer Lloyd line, emerged from
a drydock, and a large quantity
of coal, also a large quantity
of other stores and added sailors
to the crew.

The ship then moved back to her pier.
Lately the Wilhelm, which has been
in refuge here since the outbreak of
the war, was the subject of the harbor
authorities for New London, Conn.,
for which port she obtained clearance
papers last night. Officials of the
line asserted the changes were made to
reduce docking charges, and denied
the report that there was any connection
between the Wilhelm's move-
ments and the expected arrival of the
German merchant submarine fleet.

The steamer Lloyd line, emerged from
a drydock, and a large quantity
of coal, also a large quantity
of other stores and added sailors
to the crew.

The ship then moved back to her pier.
Lately the Wilhelm, which has been
in refuge here since the outbreak of
the war, was the subject of the harbor
authorities for New London, Conn.,
for which port she obtained clearance
papers last night. Officials of the
line asserted the changes were made to
reduce docking charges, and denied
the report that there was any connection
between the Wilhelm's move-
ments and the expected arrival of the
German merchant submarine fleet.

The Wilhelm Heintz, a liner, was
seen at the port and wharves here,
concerning them attracted attention today.
